**CHABI CHIC, THE POPULAR MOROCCAN  
LIFESTYLE REVISITED.  
TRENDY, CHIC AND EXCLUSIVELY HANDMADE.**

The refinement and practicality of Chabi Chic's creations will quickly make them indispensable. Inspired by traditional skills, our artwork re-imagines the beauty of Tadelakt work, basketry, vintage patterns, tableware and Zellige. At Chabi Chic, we believe that the art of living begins at home: the first cup of coffee in the morning, the decoration of a table, a luxuriously scented candle - so many details that sublimate everyday life.

## **CHABI CHIC IS THE STORY OF TWO WOMEN !**

Vanessa Di Mino and Nadia Noël are the founders of Chabi Chic. Both born in Paris, their paths crossed under the blue skies of Marrakech where, ten years ago, they had moved to work on personal projects. They quickly decided to combine their worlds and embark together on the ambitious journey of female entrepreneurship. Their love of authenticity, tradition and timeless elegance provided a solid foundation for the brand, and Chabi Chic was born.

**"We have chosen a contemporary approach to Moroccan craftsmanship to create collections that draw inspiration from the past while writing a sustainable future".**

Vanessa's background as an architect guides her artistic direction at Chabi Chic and defines the brand's identity through her design choices and artistic sensibility, while Nadia's business expertise has led her to take charge of the brand's development and representation in Morocco and abroad.

If you love the Chabi Chic tableware, you will be smitten with our candles!

Our beautiful cups, bowls, and pots are transformed into new desirable objects: a unique scented candle.

Remaining true to our intention of showcasing Moroccan craftsmanship, each piece is entirely handcrafted.

## **CRAFTSMANSHIP :**

We use white earthenware and food-grade paints, of which the shades are elaborated in our workshops.

The production time for each ceramic object is 8 days. Multiple stages of shaping, firing, illustrating, and glazing make them exceptional objects that remind us that beautiful objects are those made with the hand and heart.

The wax pouring stage is then done in another workshop, where the entire process is also done by hand. Two days are needed to obtain a high-quality candle.

- Our wicks are made of pure cotton for optimal burning quality.
- Our perfumes are free from CMR substances and controversial substances.
- Our candles are free from wax additives, coloring, lead, phthalates, and GMOs.

The Chabi Chic candle is a little gem to offer or treat oneself to. It is a precious gift designed to live and relive.

Once finished, the container can be reused in your everyday life.

# CANDLES FRAGRANCE 2024

## FIG

The fig tree fragrance is a trip back to moments of relaxation under the sun, sheltered by the fig trees of Morocco, combining the freshness of the leaves with the sweetness of the fruit. It brings to mind the delicate fragrance of the tree carried by the winds off the Moroccan coast.

- OURIKA LILAC
- KAKI
- FRUITS FIG

### HEAD NOTE

Fig leaves

### BACKGROUND NOTE

White cedar

### HEART NOTE

Fig tree branch

---

## ORANGE BLOSSOM

The irresistible scent of Orange Blossom, the harbinger of spring, spreads through the streets of Marrakech, leaving behind a delicate trail of sunshine. This sweet, fresh and sensual fragrance envelops you in light and well-being, evoking the delicate pleasures of the spring season.

- WHITE
- MAJORELLE BLUE
