- 7** TEA AND COFFEE : *cups, mugs and butter dishes*
- 8** THE GLASSES : *ceramic and recycled glass*
- 9** DECORATION : *Candleholders, pedestals, ashtrays and vases*
- 10** THE BOXES

**CHABI CHIC, THE POPULAR MOROCCAN  
LIFESTYLE REVISITED.  
TRENDY, CHIC AND EXCLUSIVELY HANDMADE.**

The refinement and practicality of Chabi Chic's creations will quickly make them indispensable. Inspired by traditional skills, our artwork re-imagines the beauty of Tadelakt work, basketry, vintage patterns, tableware and Zellige. At Chabi Chic, we believe that the art of living begins at home: the first cup of coffee in the morning, the decoration of a table, a luxuriously scented candle - so many details that sublimate everyday life.

## **CHABI CHIC IS THE STORY OF TWO WOMEN !**

Vanessa Di Mino and Nadia Noël are the founders of Chabi Chic. Both born in Paris, their paths crossed under the blue skies of Marrakech where, ten years ago, they had moved to work on personal projects. They quickly decided to combine their worlds and embark together on the ambitious journey of female entrepreneurship. Their love of authenticity, tradition and timeless elegance provided a solid foundation for the brand, and Chabi Chic was born.

**"We have chosen a contemporary approach to Moroccan craftsmanship to create collections that draw inspiration from the past while writing a sustainable future".**

Vanessa's background as an architect guides her artistic direction at Chabi Chic and defines the brand's identity through her design choices and artistic sensibility, while Nadia's business expertise has led her to take charge of the brand's development and representation in Morocco and abroad.

# KNOWLEDGE

Chabi Chic creations are entirely and exclusively handmade.

**OUR COMMITMENT: TO PERPETUATE THE KNOWLEDGE OF MOROCCAN CRAFTSMEN WHILE REVISITING STYLES.**

Chabi Chic combines the ancestral skills of Moroccan craftsmen with a audacious aesthetic that reinvents the oriental codes of this craft.

By collaborating closely with craftsmen, we have developed a high-quality ceramic that sets us apart.

Each new collection tells a story linked to the kingdom, while adding a contemporary or trendsetting touch.

Traditional motifs are redesigned, and bright colours combine to create audacious new artworks.

So that each piece designed by different hands looks the same: our craftsmen are trained for weeks to acquire this CHABI line. A line that is at once precise, light and recognizable.

Illustration times can range from 15 minutes to almost 2 hours, depending on the shapes and designs!

# THE TIME

It takes fifteen days to create a piece.

Our craftsmen work on the wheel for round pieces and in moulds for square pieces, using clay that has been carefully prepared for several hours beforehand.

The wet pieces must then be allowed to dry a little naturally in the Marrakech sunshine.

24 hours allows the pieces to evacuate as much water as possible before the first firing at 1000°C for 24 hours.

From this first oven, we obtain "biscuits", baked, porous pieces with a slightly grainy, matt appearance, on which we draw our designs in the Chabi signature Colors: a mixture of pigments of different colours that we make in our workshop.

Each pattern is studied by a Master called a Maâlem, who is assisted by trainees who work alongside him for an entire year.

Over the 10 years of our existence, we have noticed that young Moroccans are becoming increasingly short of traditional skills. So we set up a production chain system so that the older generation could pass on their knowledge to the younger generation on a long-term basis. In this way, young people have prospects for professional development and the secrets of Moroccan craftsmanship are preserved.

A master outlines the design, and 3 apprentices carefully fill in the drawings under the master's expert eye.

We then glaze each piece, to vitrify it and protect its illustrations, of course, but above all to adapt it to food use. This glaze also reduces the porosity of the faience as much as possible, so that you can put your pieces in the dishwasher if they are GOLD-free.

A final 36-hour baking process at 1000°C is required.

# THE ULTIMATE CHABI TOUCH: GOLD

Last but not least: 12-carat gold. It is the double sparkle of our creations.

A true witness to the past, it was one of the hallmarks of the royal services of Morocco.

Brushed on in its liquid state, it is revealed by the 3rd and final firing.

This delicacy sublimates all the work of our craftsmen who work for 2 weeks to bequeath each piece to you.

## UNIQUE & ARTISANAL PIECES

Today, we combine our meticulous attention to detail with this artisanal process to produce unique, harmonious and consistent pieces, with the fine, precise and modern treatment of ceramics that is so important to us.

This job requires great humility in the face of the natural material that is essential to our work, clay. Many parameters have to be controlled during the process, such as temperature, humidity and atmospheric pressure, to guarantee the success of the process, and each new oven we open is a treasure trove: we never know for sure what we'll find. Perhaps the disappointment of a few cracked pieces or the wonder of a perfect batch.

**And that's where the beauty and excitement of this craft resides.**

# WHAT'S NEW FOR SPRING SUMMER 2024

*Two new designs for this spring-summer season!*

*The first, 'fruit', gave us a hard time.*

*We've been dreaming about fruit on our plates... Well, it's done!  
It took many hours of work for the artisans to get off the  
beaten track of oriental motifs.*

*It took many steps to make this new 'fruit' pattern perfect.  
At first it was just fruit. Then leaves made their appearance...*

*The edges with small dots, a Chabi signature.*

*These leaves were so pretty and refined...*

*A new pattern was born!*

*And surprise, surprise: it mixes perfectly with all our existing colours and patterns!*

*Then it was impossible to be satisfied with just plates!  
Jugs, mugs, tins... dozens more references to delight us!*

*The long-awaited  
pasta plate*

*A smaller format  
soup plate*

*a plate with a edge  
for your dishes with sauce*

*A new, practical shape for  
conical bowls and salad bowls*

*A new small jug format*

*3 sizes of low salad bowls for your summer salads*

*the mug family expands  
with this new little mug*

*A new color paille  
for our "fleurs" print*

*Small pedestal candleholders,  
an elegant way to add height  
height to your tables*

*3 new sizes of candles in new scents:  
citrus gardens, mystic amber, pomegranate, lemon verbena.*

*cake plates*

*A new fruit bowl*

## **MUGS AND CUPS**

Timeless elegance and refined craftsmanship. Each piece reflects a subtle blend of Moroccan tradition and modernity, bringing a touch of sophistication to your moments of relaxation and enjoyment. The delicate details and rich colours make each cup a work of art in itself. Whether you're enjoying your morning coffee, afternoon tea or any other favourite drink.

*Our mugs add a touch of elegance to every sip.*
